Now recruiting for 2025:
OutSystems Low-Code Developers

Complete your applications
by 21 March 2025

Is Temus and Step IT Up for you?

Temus was established by Temasek in partnership with UST, to provide digital transformation solutions for the private and public sectors in Singapore and beyond. We launched Step IT Up Singapore to train more winning tech talents for our digital workforce, even without prior tech training/ background.

~60 graduates now work with us and our clients, applying their newly acquired digital skills in real-world consulting projects, with 17 of them in our growing low-code team!

Who are we looking for?

From platform delivery workers to financial advisors, marketers to engineers, we believe that anyone with the right motivation, passion, and learning agility should apply. You must be a Singapore Citizen or Permanent Resident. This programme is open to those without prior experience and education in computer science.

Join our Online Info Sessions:
05 MAR 2025 & 18 MAR 2025
7PM

PROGRAMME INFORMATION 2025 COHORT

Participants of the programme will undergo a comprehensive and interdisciplinary curriculum comprising Core Skills Training and the principles / best practices of low-code programming with OutSystems. This four-month* accelerated programme will wrap up with a capstone project and a pathway to an OutSystems certification.

WHAT IS LOW CODE & OUTSYSTEMS?

Low-code is a software development approach that uses visual interfaces and drag-and-drop features to automate coding tasks. Low-code has gained a lot of attention and use in the tech industry as it has enabled more efficient development of a range of web and mobile applications.

Outsystems is recognised as a leading platform for Low-Code development. For years, OutSystems has been a Leader in the Gartner Magic Quadrant-- an internationally recognised market research report on the competitive positioning of technology providers.

In Singapore, enterprises and government agencies ranging from Starhub, SIM Global, to Skillsfuture Singapore and the EDB are Outsystems customers. Temus is a long-time partner of OutSystems, and is the first in Singapore to earn a Premier Partner badge with them in recognition of our work together.

To learn more, visit www.outsystems.com. Read about our work at www.outsystems.com/partners/temus-pte-ltd

WHAT WILL YOU LEARN?

Fully sponsored, four-month* full-time skills training in foundational Tech/coding skills and Outsystems. *Pace of training may be subject to adjustments as deemed necessary by Temus.

Melody Byrd | Coach for Step IT Up x Temus

Hailing from US, Melody Byrd enjoys her position as the Programme Manager and Coach for the Step IT Up Programme at Temus. Her goal is to support the trainees in crossing the finish line to graduation. She has been a coach with this same programme in the US for over 9 years and has graduated over 200 participants, including the largest class of Java developers during COVID. Prior to this position, Melody was a business analyst and software consultant for Blue Cross and Blue Shield, the largest health care insurer in the United States.

READY TO APPLY?

01

Register

Head to www.stepitup.temus.com and complete the form registration. You'll receive an email confirmation with your next steps

02

Complete Online Assessments

Our assessments test for logic and analytical ability, not for technical prowess!

03

Submit CV

You'll need to do this to complete your application. We don't look for technical ability here. Blending diversity in perspectives and background is one of the tenets of SIU's success!

04

Interviews

After accessing all completed applications, eligible candidates will be called to Temus for an interview with their potential future trainers and managers.

05

Offer

➤ **Training**

➤ **Capstone**

➤ **Placement**

Successful candidates will be offered a contract with Temus before the start of training!
